Everyone, managers,
high potentials

Many organizations have adopted management methods that fail to get the best out of their people. Everyone, not just managers, should be responsible for management. Management is too important to leave to managers! Management 3.0 means engaging people, improving the whole system and increasing value for all clients. With Management 3.0, Jurgen has bundled together high-impact ideas to boost the role of management in an agile organization.

FOLLOW THE PATH

How can we understand Management 3.0?

1

How do we reinforce collaboration?

3

What's a better way to enjoy feedback?

5

How can we boost team members' motivation?

2

How should we empower people?

4

How do we learn from failures and successes?

6
